Frogs: A Chorus of Colors

John L. Behler, Deborah A. Behler

Frogs: A Chorus of Colors John L. Behler, Deborah A. Behler

A companion to the unique traveling exhibit--one of the most popular ever at museums throughout the nation--pays long-overdue homage to the fascinating frog.

With richly colorful photos and compelling, informative descriptions, John and Deborah Behler have carefully crafted a wonderful tribute to the amazingly complex frog. With decades of expertise in conservation, the Behlers are unequaled in their ability to capture the wild and ever-changing world of these amphibians--all 5,000 species. They reveal an unexpected diversity of form, lifestyle, and ecology, and take readers on a magical journey that makes vibrantly clear why these creatures are so important. Breathtaking and brilliant images show tadpoles in water and on leaves; a many-hued variety of frogs (bright blue, golden yellow and black, red and turquoise) in their environment; African sand frogs and chirping frogs; Oriental fire-bellied frogs; and tiny three-toed toadlets--among the smallest that exist. It's a vision not to be missed.
