Singapore & Kuala Lumpur Map Pack ITMB Publishing Ltd.

Singapore is a major point of entry, and both as a city and an island country is vibrant and exciting. I like to say it shows Asia as it should be and hopefully will be one day, full of modern buildings, industrious people, clean streets, and democratic government. Singapore is the shining beacon showing the rest of Asia how to progress while respecting the rights of its citizens. The map covers the urbanized part of Singapore from the Little India tourism centre in the east to the amusement area of Sentosa Island in the west, with a large inset of the island itself and its connecting causeway to Malaysia. The second map in this Map Pack is the capital of Malaysia, Kuala Lumpur. This modern, bustling city has the twin Petronas towers, the tallest such buildings in the world. KL also has one of the world's longest monorails, with 11 stations, as well as two other elevated rapid transit lines and an express train to the airport. The railway station provides excellent air-conditioned service to all parts of the country. The Colonial District in the city centre is now largely the administrative centre for what is developing into one of Asia's powerhouses. Nearby Chinatown contains the bulk of the visitor accommodations, and the Little India and Chow Kit shopping areas just to the north complete the scene. All two maps, a value at \$22 are being offered as a package for the bargain price of \$5.95. This offer is available to individuals, libraries, retailers and distributors. * Please note to all retailers and distributors, this product is NOT subject to Return or Exchange. It is well packed and should be sold as a bundle package to customers.
