The parlor was the center of the Victorian home and, as Thad Logan shows, the place where contemporary conflicts about domesticity and gender relations were frequently played out. In *The Victorian Parlour: A Cultural Study*, Logan uses an interdisciplinary approach that combines the perspectives of art history, social history, and literary theory to describe and analyze the parlor as a highly significant cultural space. The book concludes with a discussion of how representations of the parlor in literature and art reveal the pleasures and anxieties associated with Victorian domestic life.
