*Immanuel Kant*

## **Groundwork for the Metaphysics of Morals (Oxford Philosophical Texts) Immanuel Kant**

In this classic text, Kant sets out to articulate and defend the Categorical Imperative - the fundamental principle that underlies moral reasoning - and to lay the foundation for a comprehensive account of justice and human virtues.

This new edition and translation of Kant's work is designed especially for students. An extensive and comprehensive introduction explains the central concepts of *Groundwork* and looks at Kant's main lines of argument. Detailed notes aim to clarify Kant's thoughts and to correct some common misunderstandings of his doctrines.
