Arithmetic Algebraic Geometry (IAS/Park City Mathematic)

Arithmetic Algebraic Geometry (IAS/Park City Mathematic)

The articles in this volume are expanded versions of lectures delivered at the Graduate Summer School and at the Mentoring Program for Women in Mathematics held at the Institute for Advanced Study/Park City Mathematics Institute. The theme of the program was arithmetic algebraic geometry. The choice of lecture topics was heavily influenced by the recent spectacular work of Wiles on modular elliptic curves and Fermat's Last Theorem. The main emphasis of the articles in the volume is on elliptic curves, Galois representations, and modular forms. One lecture series offers an introduction to these objects. The others discuss selected recent results, current research, and open problems and conjectures. The book would be a suitable text for an advanced graduate topics course in arithmetic algebraic geometry.

From reader reviews:

Kevin Strickland:

Book is actually written, printed, or illustrated for everything. You can learn everything you want by a e-book. Book has a different type. As we know that book is important issue to bring us around the world. Next to that you can your reading proficiency was fluently. A guide Arithmetic Algebraic Geometry (IAS/Park City Mathematic) will make you to end up being smarter. You can feel a lot more confidence if you can know about almost everything. But some of you think in which open or reading a book make you bored. It is far from make you fun. Why they might be thought like that? Have you searching for best book or suited book with you?

Jason Ayers:

Hey guys, do you wants to finds a new book to study? May be the book with the headline Arithmetic Algebraic Geometry (IAS/Park City Mathematic) suitable to you? The actual book was written by famous writer in this era. The book untitled Arithmetic Algebraic Geometry (IAS/Park City Mathematic)is one of several books in which everyone read now. This particular book was inspired a lot of people in the world. When you read this book you will enter the new dimension that you ever know previous to. The author explained their idea in the simple way, and so all of people can easily to understand the core of this reserve. This book will give you a large amount of information about this world now. To help you see the represented of the world in this particular book.

Manuel Pina:

Do you have something that you enjoy such as book? The reserve lovers usually prefer to choose book like comic, brief story and the biggest the first is novel. Now, why not hoping Arithmetic Algebraic Geometry (IAS/Park City Mathematic) that give your enjoyment preference will be satisfied by reading this book. Reading addiction all over the world can be said as the means for people to know world a great deal better then how they react to the world. It can't be mentioned constantly that reading practice only for the geeky man or woman but for all of you who wants to possibly be success person. So , for every you who want to start examining as your good habit, you can pick Arithmetic Algebraic Geometry (IAS/Park City Mathematic) become your own starter.

Stephen Stansbury:

Are you kind of active person, only have 10 or perhaps 15 minute in your day to upgrading your mind proficiency or thinking skill perhaps analytical thinking? Then you are receiving problem with the book than can satisfy your short period of time to read it because all this time you only find e-book that need more time to be go through. Arithmetic Algebraic Geometry (IAS/Park City Mathematic) can be your answer as it can be read by an individual who have those short time problems.
