Coral Reef Stained Glass Coloring Book (Dover Nature Stained Glass Coloring Book) Jessica Mazurkiewicz

Dive in! The coloring's just fine. Take a breathtaking journey into one of the most beautiful habitats in the universe — the coral reef — a vibrant underwater neighborhood that's shimmering with life. In existence for millions of years, coral are tiny sea animals related to jellyfish and anemones. Found in tropical waters, they form reefs that become home to a stunning variety of marine life. These sixteen black-and-white illustrations include spectacular schools of fish, seahorses, manatees, dolphins, sea turtles, and more. Color or paint them — on one side or both — then display them near a source of light for a luminous stained glass effect. Pages are perforated for easy removal.
