Music - 100 Word Search Puzzles (Volume 4) Sergii Tolmachov

Locate the given words in the grid, running in one of eight possible directions horizontally, vertically, or diagonally. Strategies: A common strategy for finding all the words is to go through the puzzle left to right (or vice versa) and look for the first letter of the word (if a word list is provided). After finding the letter, one should look at the eight surrounding letters to see whether the next letter of the word is there. One can then continue this method until the entire word is found. Another strategy is to look for 'outstanding' letters within the word one is searching for (if a word list is provided). Since most word searches use capital letters, it is easiest to spot the letters that stand out from others. These letters are Q, O, U, X, and Z. Lastly, the strategy of looking for double letters in the word being searched for (if a word list is provided) proves helpful, because it is easier to spot two identical side-by-side letters among a large grid of random letters.
