Foundation Expression Blend 2: Building Applications in WPF and Silverlight Victor Gaudio

Expression Blend was Microsoft's first entry into the web application and design space; the first time they trod on Adobe Flash's toes. They got a lot of things right, and started to carve out a market, but they didn't get the crossover numbers they wanted. Blend 2 is where they put that right. It is a huge improvement over Blend. This book details everything a designer or developer needs to know to start developing web applications in Blend.
