Designed for dermatologists, dermatopathologists, and trainees of all levels, *Dermatology: Visual Recognition and Case Reviews* is a brand-new resource that aims to maximize your skill at recognizing diseases by visual presentation. Its unique dedication to rich images enhances your **learning experience**, **ability to understand and visualize key concepts**, and **retention of information**, while case reviews offer examples of the framework that can be used when approaching a patient.

- **Concise text** allows the focus to be placed on images, maximizing your ability to **recognize diseases by visual presentation** to better prepare you for day-to-day clinic, certification and maintenance exams.
- Arranged by **patterns of skin disease** (e.g. diffuse vs. localized, patterned), with **clues** (e.g. islands of sparing, nail changes) to different diagnoses and emphasis on the **correlation between clinical and microscopic findings**.
- **Key difference pages for each section/subsection** enable you to quickly compare and contrast different diseases that can look similar but are distinguishable.
- **Case reviews** hone in on specifics when evaluating a patient.
- Boasts high-quality **clinical and pathological images** for nearly all entities, plus useful body schematic shows likely distribution areas.
- **Features differential diagnosis** of particular presentations.
- **Expert Consult eBook version included with purchase**. This **enhanced eBook experience** allows you to search all of the text, figures, images, and references from the book on a variety of devices.
