The concepts of self-similarity and scale invariance have arisen independently in several areas. One is the study of the critical properties of phase transitions; another is fractal geometry, which involves the concept of (non-integer) fractal dimension. These two areas have now come together, and their methods have extended to various fields of physics. The purpose of this Symposium was to provide an overview of the physical phenomena that manifest scale invariance and fractal properties with the aim of bringing out the common mathematical features. The emphasis was on theoretical and experimental work related to well defined physical phenomena.

From reader reviews:

Erica Logan:

Nowadays reading books become more and more than want or need but also get a life style. This reading addiction give you lot of advantages. Associate programs you got of course the knowledge the particular information inside the book which improve your knowledge and information. The information you get based on what kind of book you read, if you want send more knowledge just go with knowledge books but if you want sense happy read one with theme for entertaining for example comic or novel. Typically the Fractals in Physics: Proceedings of the Sixth Trieste International Symposium on Fractals in Physics, Ictp, Trieste, Italy, July 9-12, 1985 is kind of publication which is giving the reader erratic experience.

Marlin Peterson:

The e-book with title Fractals in Physics: Proceedings of the Sixth Trieste International Symposium on Fractals in Physics, Ictp, Trieste, Italy, July 9-12, 1985 possesses a lot of information that you can study it. You can get a lot of profit after read this book. This particular book exist new understanding the information that exist in this publication represented the condition of the world today. That is important to yo7u to find out how the improvement of the world. This particular book will bring you in new era of the internationalization. Does one one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Attempt to pick one book that you never know the inside because don't assess book by its handle may doesn't work here is difficult job because you are frightened that the inside maybe not since fantastic as in the outside appearance likes. Maybe you answer can be Fractals in Physics: Proceedings of the Sixth Trieste International Symposium on Fractals in Physics, Ictp, Trieste, Italy, July 9-12, 1985 why because the wonderful cover that make you consider in regards to the content will not disappooint an individual. The inside or content is fantastic as the outside or maybe cover. Your reading 6th sense will directly guide you to pick up this book.

Chi Reyes:

What is your hobby? Have you heard that will question when you got pupils? We believe that that concern was given by teacher with their students. Many kinds of hobby, Every person has different hobby. And also you know that little person including reading or as studying become their hobby. You need to understand that reading is very important in addition to book as to be the issue. Book is important thing to add you knowledge, except your teacher or lecturer. You will find good news or update regarding something by book. Many kinds of books that can you go onto be your object. One of them is niagra Fractals in Physics: Proceedings of the Sixth Trieste International Symposium on Fractals in Physics, Ictp, Trieste, Italy, July 9-

12, 1985.
