Marc Mangel

Mathematical modelling is widely used in ecology and evolutionary biology and it is a topic that many biologists find difficult to grasp. In this new textbook Marc Mangel provides a no-nonsense introduction to the skills needed to understand the principles of theoretical and mathematical biology. Fundamental theories and applications are introduced using numerous examples from current biological research, complete with illustrations to highlight key points. Exercises are also included throughout the text to show how theory can be applied and to test knowledge gained so far. Suitable for advanced undergraduate courses in theoretical and mathematical biology, this book forms an essential resource for anyone wanting to gain an understanding of theoretical ecology and evolution.

### **From reader reviews:**

#### **Katherine Humphrey:**

The book *The Theoretical Biologist's Toolbox: Quantitative Methods for Ecology and Evolutionary Biology* can give more knowledge and information about everything you want. So just why must we leave a very important thing like a book *The Theoretical Biologist's Toolbox: Quantitative Methods for Ecology and Evolutionary Biology*? A number of you have a different opinion about publication. But one aim which book can give many information for us. It is absolutely correct. Right now, try to closer along with your book. Knowledge or information that you take for that, it is possible to give for each other; you could share all of these. Book *The Theoretical Biologist's Toolbox: Quantitative Methods for Ecology and Evolutionary Biology* has simple shape however, you know: it has great and large function for you. You can seem the enormous world by wide open and read a book. So it is very wonderful.

#### **Faye Bolin:**

*The Theoretical Biologist's Toolbox: Quantitative Methods for Ecology and Evolutionary Biology* can be one of your nice books that are good idea. We all recommend that straight away because this publication has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but nonetheless delivering the information. The writer giving his/her effort to get every word into enjoyment arrangement in writing *The Theoretical Biologist's Toolbox: Quantitative Methods for Ecology and Evolutionary Biology* although doesn't forget the main point, giving the reader the hottest as well as based confirm resource information that maybe you can be considered one of it. This great information can certainly drawn you into brand new stage of crucial imagining.

#### **James Melendez:**

Do you really one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Try to pick one book that you find out the inside because don't determine book by its handle may doesn't work at this point is difficult job because you are afraid that the inside maybe not seeing that fantastic as in the outside seem likes. Maybe you answer could be *The Theoretical Biologist's Toolbox: Quantitative Methods for Ecology and Evolutionary Biology* why because the excellent cover that make you consider with regards to the content will not disappoint you. The inside or content is usually fantastic as the outside as well as cover. Your reading 6th sense will directly make suggestions to pick up this book.

#### **Johnny Abel:**

Beside this kind of *The Theoretical Biologist's Toolbox: Quantitative Methods for Ecology and Evolutionary Biology* in your phone, it could possibly give you a way to get more close to the new knowledge or facts. The information and the knowledge you will got here is fresh from your oven so don't always be worry if you feel like an outdated people live in narrow small town. It is good thing to have *The Theoretical Biologist's Toolbox: Quantitative Methods for Ecology and Evolutionary Biology* because this book offers

for your requirements readable information. Do you oftentimes have book but you do not get what it's facts concerning. Oh come on, that won't happen if you have this in your hand. The Enjoyable option here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss the item? Find this book and also read it from now!
