Children with Disabilities

This reference provides coverage of the developmental, clinical, educational, family and intervention issues related to the care of children with disabilities. Readers will explore the beginning of life from conception to infancy, including factors in each stage that can cause disability; learn about child development, including physical development and preventable threats; go in-depth on specific developmental disabilities they'll likely encounter; and find guidelines on conducting interventions, managing outcomes, and working with families. Applicable across fields, this comprehensive text should be useful for both preservice and in-service professionals. The book features case stories, a glossary of key terms and appendices about medications, resources and syndromes and inborn errors of metabolism.
