Life in the Pueblo: Understanding the Past Through Archaeology Kathryn A. Kamp, Amy Henderson
Within the effective format of a nontechnical case study, *Life in the Pueblo* provides an understanding of the basic methodologies in modern archaeology, including the formation of archaeological sites, dating, the role of ethnographic analogy, and analytic techniques like trace element sourcing, use-wear analysis, and carbon isotope determinations of diet. The archaeological interpretations are put into perspective by the inclusion of Hopi and Zuni history and myth and the liberal use of ethnographic information from the Hopi and other historic and modern puebloan groups. A short fictional reconstruction of life in the village invites the reader to reflect on the fact that the past was a period occupied by people, not just potsherds. Based on four years of excavation and ten years of analysis of a puebloan site near modern Flagstaff, Arizona, this profusely illustrated volume captures readers' interest and imagination as it explores some of the fundamental principles of archaeology.
