Although many books on Engineering Chemistry are available in the market, but they are beyond the mental horizon of Indian students of science pursuing high degree of Graduation and post graduation. This book has been written in simple and easy language with relevant examples. So that even mediocre students can grasp the subject. In biochemistry, many enzymatic reactions are oxidation-reduction reactions in which one compound is oxidized and another compound is reduced. The ability of an organism to carry out oxidation-reduction reactions depends on the oxidation-reduction state of the environment, or its reduction potential.
