Landscape by Design (Mathematics Readers) Christine Dugan

Understanding geometry is very important when designing a backyard! Designers have to know how to measure the perimeter and area of design spaces. This vibrant title teaches readers about landscape architecture and design while encouraging them to practice their geometric measurements, like perimeter, area, diameter, radius, and angles. With the help of interesting images, easy-to-read text, related practice problems, STEM topics, and clear mathematical diagrams, this title makes geometry fun and simple, allowing readers to use their mathematical skills creatively!

About Shell Education

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
