CoreOS in Action

Matt Bailey

CoreOS in Action Matt Bailey

To be competitive, an organization needs to reach modern standards of scalability and high availability. While Linux is an option, it's painful to deal with the frequent operating system updates and complex configuration management. Docker, a popular container system, can reduce these manual system administration tasks. While plenty of Linux distributions support Docker, they do not handle large scale production. This is where CoreOS can help. CoreOS is an operating system designed from the ground up to facilitate container use at any scale.

CoreOS in Action begins by introducing the core components, how services run in CoreOS, and the big picture of how the parts fits together. Next, readers learn how to fire up their own CoreOS cluster. Readers learn how to configure their local environment, the basics of CoreOS system administration, and follow an application deployment example. It covers how to take advantage of CoreOS's high availability and fault tolerance as well as how to plan application architecture. The book also covers operational planning for CoreOS, deployment options, and how to deal with mass storage. Readers will discover end-to-end deployment of CoreOS in Amazon Web Services, and learn from real-world examples of application stacks.

Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.

From reader reviews:

Jennie Groth:

What do you concentrate on book? It is just for students because they are still students or this for all people in the world, the particular best subject for that? Merely you can be answered for that question above. Every person has diverse personality and hobby per other. Don't to be compelled someone or something that they don't want do that. You must know how great along with important the book CoreOS in Action. All type of book are you able to see on many solutions. You can look for the internet options or other social media.

Louis Hartford:

As people who live in the modest era should be change about what going on or data even knowledge to make these people keep up with the era that is certainly always change and advance. Some of you maybe will probably update themselves by studying books. It is a good choice in your case but the problems coming to an individual is you don't know what type you should start with. This CoreOS in Action is our recommendation to cause you to keep up with the world. Why, because book serves what you want and wish in this era.

Desiree Herdon:

Nowadays reading books become more and more than want or need but also be a life style. This reading routine give you lot of advantages. The benefits you got of course the knowledge the rest of the information inside the book that improve your knowledge and information. The knowledge you get based on what kind of e-book you read, if you want send more knowledge just go with education books but if you want experience happy read one with theme for entertaining including comic or novel. The particular CoreOS in Action is kind of publication which is giving the reader unforeseen experience.

Sandra Williams:

Book is one of source of knowledge. We can add our information from it. Not only for students but also native or citizen need book to know the up-date information of year to be able to year. As we know those ebooks have many advantages. Beside all of us add our knowledge, could also bring us to around the world. By the book CoreOS in Action we can take more advantage. Don't you to be creative people? Being creative person must prefer to read a book. Simply choose the best book that acceptable with your aim. Don't end up being doubt to change your life with this book CoreOS in Action. You can more attractive than now.
