Mirage Men: An Adventure into Paranoia, Espionage, Psychological Warfare, and UFOs Mark Pilkington

Part personal odyssey, part espionage adventure, and part social history, *Mirage Men* delves into the world of UFOs, those who believe in them, and those who would have us believe in them. This is not your average UFO book. *Mirage Men* explores the strange and symbiotic relationship between the U.S. military and intelligence agencies and the community who believes strongly that UFOs have visited earth.

Just how has the U.S. government manipulated the public's belief in UFOs to hide military aircraft experimentation? Among the UFO believers are the "mirage men"—a close-knit group of men and women whose careers span science medicine, the military, and the intelligence services. They believe they have received parts of a flying saucer-shaped puzzle, whose final pieces lie tantalizingly out of reach. Dive into this comprehensive and astonishing exposition of exactly what these Mirage Men believe, and why. Interviews, anecdotes, and cold hard facts make this a persuasive book that's hard to ignore. Many are sure that official disclosure—government announcement of extraterrestrial presence—is just around the corner.
