Pink Therapy Guide for Counselors Davies

"Pink therapy" is the first British guide to counsellors and therapists working with people who are lesbian, gay or bisexual. It provides a much needed overview of lesbian, gay and bisexual psychology, and examines some of the differences between lesbians, gays and bisexuals, and heterosexuals. "Pink therapy" proposes a model of gay affirmative therapy, which challenges the prevailing pathologizing models. It will help to provide answers to pressing questions such as: what is different about lesbian, gay and bisexual psychologies? how can I improve my work with lesbian, gay and bisexual clients? what are the key clinical that this work raises? The contributors draw on their wide range of practical experience to provide - in an accessible style - information about the contemporary experience of living as a lesbian, gay or bisexual person, and to explore some of the common difficulties.
