When US Marine Sergeant Jill "Reaper" Repeth's blown-off legs begin to regenerate, she believes it is a miracle. But the astonishing scientific breakthrough that healed her crippling war wounds is exactly what secret forces inside the government are desperately seeking to quash--by any means necessary. Hunted by increasingly ruthless agents across a disintegrating America caught up in apocalyptic strife, she must make a bitter choice between searching for a family that may already be dead and trying to discover the inhuman secret of a plague that causes miracles--and disasters.

David VanDyke is a Hugo Award finalist, the bestselling author of the Plague Wars and Stellar Conquest series, and a co-author of B.V. Larson's million-selling Star Force series. He is a retired U.S. military officer, a veteran of two branches of the U.S. armed forces, and has served in several combat zones.
