Fashion, Faith, and Fantasy in the New Physics of the Universe

Roger Penrose

Fashion, Faith, and Fantasy in the New Physics of the Universe Roger Penrose

What can fashionable ideas, blind faith, or pure fantasy possibly have to do with the scientific quest to understand the universe? Surely, theoretical physicists are immune to mere trends, dogmatic beliefs, or flights of fancy? In fact, acclaimed physicist and bestselling author Roger Penrose argues that researchers working at the extreme frontiers of physics are just as susceptible to these forces as anyone else. In this provocative book, he argues that fashion, faith, and fantasy, while sometimes productive and even essential in physics, may be leading today's researchers astray in three of the field's most important areas--string theory, quantum mechanics, and cosmology.

Arguing that string theory has veered away from physical reality by positing six extra hidden dimensions, Penrose cautions that the fashionable nature of a theory can cloud our judgment of its plausibility. In the case of quantum mechanics, its stunning success in explaining the atomic universe has led to an uncritical faith that it must also apply to reasonably massive objects, and Penrose responds by suggesting possible changes in quantum theory. Turning to cosmology, he argues that most of the current fantastical ideas about the origins of the universe cannot be true, but that an even wilder reality may lie behind them. Finally, Penrose describes how fashion, faith, and fantasy have ironically also shaped his own work, from twistor theory, a possible alternative to string theory that is beginning to acquire a fashionable status, to "conformal cyclic cosmology," an idea so fantastic that it could be called "conformal crazy cosmology."

The result is an important critique of some of the most significant developments in physics today from one of its most eminent figures.

From reader reviews:

Derek Morton:

Nowadays reading books become more and more than want or need but also get a life style. This reading practice give you lot of advantages. The huge benefits you got of course the knowledge the particular information inside the book this improve your knowledge and information. The knowledge you get based on what kind of publication you read, if you want send more knowledge just go with education books but if you want sense happy read one having theme for entertaining for example comic or novel. The actual Fashion, Faith, and Fantasy in the New Physics of the Universe is kind of book which is giving the reader unpredictable experience.

Jody Tolar:

Your reading 6th sense will not betray you, why because this Fashion, Faith, and Fantasy in the New Physics of the Universe publication written by well-known writer whose to say well how to make book which might be understand by anyone who have read the book. Written within good manner for you, leaking every ideas and producing skill only for eliminate your own personal hunger then you still hesitation Fashion, Faith, and Fantasy in the New Physics of the Universe as good book not merely by the cover but also by content. This is one book that can break don't determine book by its cover, so do you still needing an additional sixth sense to pick this specific!/? Oh come on your looking at sixth sense already told you so why you have to listening to an additional sixth sense.

Kellie Smith:

Don't be worry when you are afraid that this book will probably filled the space in your house, you will get it in e-book method, more simple and reachable. This kind of Fashion, Faith, and Fantasy in the New Physics of the Universe can give you a lot of buddies because by you considering this one book you have matter that they don't and make a person more like an interesting person. This book can be one of a step for you to get success. This guide offer you information that probably your friend doesn't understand, by knowing more than various other make you to be great folks. So , why hesitate? Let me have Fashion, Faith, and Fantasy in the New Physics of the Universe.

Herbert Willams:

That publication can make you to feel relax. This specific book Fashion, Faith, and Fantasy in the New Physics of the Universe was colorful and of course has pictures on there. As we know that book Fashion, Faith, and Fantasy in the New Physics of the Universe has many kinds or genre. Start from kids until adolescents. For example Naruto or Private investigator Conan you can read and believe you are the character on there. Therefore , not at all of book are make you bored, any it offers you feel happy, fun and relax. Try to choose the best book for you personally and try to like reading that will.
