# Drug Trafficking and International Security (Peace and Security in the 21st Century)

*Paul Rexton Kan*

**Drug Trafficking and International Security (Peace and Security in the 21st Century)** Paul Rexton Kan  
Global drug trafficking intersects with a vast array of international security issues ranging from war and terrorism to migration and state stability. More than just another item on the international security agenda, drug trafficking in fact exacerbates threats to national and international security. In this light, the book argues that global drug trafficking should not be treated as one international security issue among many. Rather, due to the unique nature of the trade, illegal drugs have made key threats to national and international security more complex, durable, and acute. Drug trafficking therefore makes traditional understandings of international security inadequate.
